1. Linkage Program: ARC Centres of Excellence processes

The Linkage Program is designed to achieve the Australian Government's objectives for research and innovation.

This grant program contributes to the ARC's Outcome 1, which is to grow knowledge and innovation through managing research grants, measuring research excellence and providing advice.

The following process flowchart applies to the *ARC Centres of Excellence for funding commencing in 2023* grant opportunity.

The grant opportunity opens.

We (the ARC) publish the grant guidelines and advertise on GrantConnect.

You (the Administering Organisation) complete an Expression of Interest application (EOI application).

You may submit a 'Request not to Assess' form two weeks before the closing date for EOI applications.

We manage the assessment of all EOI applications.

We manage the assessment of EOI applications against eligibility criteria and assessment criteria and compare Your EOI application to other EOI applications.

Your EOI application will be assigned to Detailed Assessors to undertake in-depth assessments. You will have an opportunity to respond to Detailed Assessors' written comments through a rejoinder.

Selection Advisory Committee (SAC) members will then assess Your EOI application, consider the Detailed Assessors' ratings and comments and Your rejoinder.

The SAC will collectively consider all EOI applications and recommend a shortlist of EOI applications to be invited to submit a full application.

The recommended shortlist and any advice on national security issues will be considered by the ARC Chief Executive Officer (CEO).

We notify You of the shortlist result.

If Your EOI application has been shortlisted, We invite You to submit a full application.

If invited, You complete and submit a full application (full application).

We manage the assessment of all full applications.

We manage the assessment of full applications against eligibility criteria and assessment criteria including an overall consideration of value for money.

Your full application will be assigned to Detailed Assessors to undertake in-depth assessments. You will have an opportunity to respond to Detailed Assessors' written comments through a rejoinder.

Selection Advisory Committee (SAC) members will then assess Your full application, consider the Detailed Assessors' ratings and comments and Your rejoinder and assign a final score.

The SAC will consider all full applications and may recommend a shortlist of full applications to be invited to participate in an interview. You will be advised if Your full application is not shortlisted.

The SAC will undertake interviews with You and other people associated with the full application.

We make grant recommendations.

When all interviews are completed, the SAC will consider all full applications interviewed, and recommend to the CEO the full applications to be funded, and the level and duration of funding for each Centre.

The CEO will then recommend to the Minister the full applications to be funded, and the level and duration of funding for each Centre.

In making recommendations to the Minister the CEO will consider the applicant's response to the National Interest Test. The CEO will seek information from Administering Organisations on applications where there is concern about how they meet the National Interest Test based on the information provided in the full application form. The CEO will make grant recommendations to the Minister that satisfy the National Interest Test and which are eligible for funding.

The CEO may take into account any advice received on national security or other matters from Commonwealth agencies.

Grant decisions are made.

The Minister decides which full applications are approved, and the level of funding and duration of funding for each approved Centre. The Minister may consider the National Interest Test and any advice on national security risks in determining which full applications to approve.

We notify You of the outcome.

We advise You if Your full application was successful or not through Our Research Management System (RMS).

We enter into a grant agreement with You.

We will enter into a grant agreement with You through RMS.

Delivery of the grant.

You undertake the grant activity and report to Us as set out in Your grant agreement.
We manage the grant by working with You, monitoring Your progress and making payments.

Evaluation of the grant opportunity.

We evaluate the specific grant activity and the grant opportunity as a whole.
We will use information You provide to Us through Your reports to inform evaluations.

- 4.17. A project cannot commence until all named participants meet the eligibility criteria in these grant guidelines.

Centre Directors

- 4.18. A person nominated as a Centre Director must consider project limits applicable to other ARC schemes for the purpose of eligibility.
- 4.19. A person nominated as a Centre Director is considered to be a CI for the purpose of eligibility.
- 4.20. The Centre Director must:
 - a. commit a minimum of 70 per cent (0.7 FTE) to the activities of the proposed Centre;
 - b. be employed by the Administering Organisation for at least 70 per cent of Full Time Equivalent (0.7 FTE) as at the grant commencement date and, if the application is successful, for the project activity period; and
 - c. have a demonstrated capacity to manage the research program and operations of the Centre.

Chief Investigators

- 4.21. CIs are expected to:
 - a. take significant intellectual responsibility for the conception and conduct of the Centre and for any strategic decisions required in its pursuit and the communication of results;
 - b. ensure effective supervision, support and mentoring at all times of research personnel, including Higher Degree by Research (HDR) candidates and postdoctoral researchers for whom they are responsible; and
 - c. make a commitment to carrying out the research program and operations of the Centre and not assume the role of a supplier of resources for work that will largely be undertaken by others.
- 4.22. CIs who are not the Centre Director must meet at least one of the following criteria as at the grant commencement date and, if the application is successful, for the project activity period:

An honorary academic appointment for eligibility purposes means a position that gives full academic status to the researcher, as certified by the Deputy Vice-Chancellor (Research) (or equivalent) in the application. The researcher must have access to research support comparable to employees e.g., an emeritus appointment. The researcher is not eligible to be a Chief Investigator using their honorary academic appointment if they are employed by an organisation other than an Eligible Organisation for more than 0.2 FTE.
- 4.23. CIs must commit a minimum of 20 per cent (0.2 FTE) to the activities of the Centre.
- 4.24. CIs must reside in Australia for more than 50 per cent of the project activity period. Any significant absences including fieldwork or study leave directly related to the research program must have approval from You and must not total more than half the project activity period. In extraordinary circumstances, changes must be approved via a Variation.

4.25. CIs must not undertake an HDR during the project activity period.

Partner Investigators

4.26. PIs are expected to:

- a. take significant intellectual responsibility for the planning and conduct of the Centre and for any strategic decisions required in its pursuit and the communication of results;
- b. have the relevant skills and experience to contribute to the Centre;
- c. make a commitment to carrying out the research program and operations of the Centre and not assume the role of a supplier of resources for work that will largely be undertaken by others; and/or
- d. provide effective supervision, support and mentoring of research personnel, as required.

4.27. PIs must not meet the eligibility criteria for CIs as at the grant commencement date and, if the application is successful, for the project activity period.

4.28. Researchers who do not meet all of the eligibility criteria for being a CI may be PIs. For example, a participant may be a PI if they would otherwise be a CI but will not reside in Australia for more than 50 per cent of the project activity period.

What are the limits on the number of applications and projects per named participant?

4.29. Individuals nominated in either an EOI application or full application may be named on other ARC grant opportunity applications or active projects. All grant applications submitted through other ARC grant opportunities and all ARC grants held may be retained until the outcome of the ARC Centres of Excellence application is known.

4.30. All named participants on a successful application must meet the project limit requirements before the Centre can start. Project limits can be met by relinquishing existing project(s), or relinquishing role(s) on existing projects, or withdrawing application(s) that would exceed the project limits. We reserve the right to determine which grants are to be relinquished.

4.31. The Centre Director and CIs named on a successful full application may retain current ARC grants for active projects provided that:

- a. the full application clearly demonstrates and explains, to Our satisfaction, the overlap between the existing non-Centre grant activities and the proposed Centre research activities; and
- b. funding for the existing non-Centre grant activities is not requested in the budget for the proposed Centre.

4.32. An individual may be nominated as a Centre Director on one EOI application or full application. A person named as Centre Director may be nominated as a CI on no more than one additional EOI application or full application in the same ARC Centres of Excellence grant opportunity. The CI role must be relinquished should both full applications be successful.

- 4.33. An individual may be nominated as a CI on a maximum of two EOI applications or full applications unless an individual is nominated as a Centre Director in which section 4.32 [above] applies.
- 4.34. It is Your responsibility to determine if applying for, or holding, a project under these guidelines will affect an individual researcher's eligibility for the other ARC grant opportunities as other ARC grant opportunities may have different project limits. We reserve the right to change project and application limits in future grant opportunities.

5. What the grant money can be used for

Eligible grant activities

- 5.1. The Linkage Program supports research activities that meet the definition of 'research'.

We will not consider applications for a grant where one or more Organisation(s) is seeking expert external assistance, not available within their own organisation, in order to develop specific applications or outputs that involve little innovation or are low risk. We consider such applications to be contracted research or a consultancy arrangement and these are ineligible.
- 5.5. We cannot fund the same research activities, infrastructure or project previously funded or currently being funded through any other Commonwealth grant.
- 5.6. The Linkage Program does not support activities leading solely to the creation or performance of a work of art, including visual art, musical compositions, drama, dance, film, broadcasts, designs and literary works, unless those works are directly related to the project activities and demonstrably research based.
