1. Linkage Program: Linkage Projects processes

The Linkage Program is designed to achieve the Australian Government's objectives for research and innovation.

This grant program contributes to the ARC's Outcome 1, which is to grow knowledge and innovation through managing research grants, measuring research excellence and providing advice.

The following process flowchart applies to the Linkage Projects grant opportunity.

The grant opportunity opens.

We (the ARC) publish the grant guidelines and advertise on GrantConnect.

You (the Administering Organisation) complete and submit an application.

We manage the assessment of all applications.

We manage the assessment of applications against eligibility criteria and assessment criteria including an overall consideration of value for money.

Your application will be assigned to Detailed Assessors to undertake in-depth assessments. You will have an opportunity to respond to Detailed Assessors' written comments through a rejoinder.

Selection Advisory Committee (SAC) members will then assess Your application, consider the Detailed Assessors' ratings and comments and Your rejoinder and assign a final score.

We make grant recommendations.

The SAC will consider all applications and recommend to the Chief Executive Officer (CEO) the applications to be funded, and the level and duration of funding for each project.

The CEO will then recommend to the Minister the applications to be funded, and the level and duration of funding for each grant.

In making recommendations to the Minister the CEO will consider the applicant's response to the National Interest Test. The CEO will seek information from Administering Organisations on applications where there is concern about how they meet the National Interest Test based on the information provided in the application form. The CEO will make grant recommendations to the Minister that satisfy the National Interest Test and which are eligible for funding.

Grant decisions are made.

The Minister decides which applications are approved, and the level of funding and duration of funding for each approved project. The Minister may consider the National Interest Test in determining which applications to approve.

We notify You of the outcome.

We advise You if Your application was successful or not through Our Research Management System (RMS).

We enter into a grant agreement with You.

We will enter into a grant agreement with You through RMS.

Delivery of the grant.

You undertake the grant activity and report to Us as set out in Your grant agreement.

We manage the grant by monitoring Your progress and making payments.

Evaluation of the grant opportunity.

We evaluate the specific grant activity and the grant opportunity as a whole.
We will use information You provide to Us through Your reports to inform evaluations.

- 2.3. The purpose of the Linkage Program is to promote national and international research partnerships between researchers and business, industry, community organisations and other publicly funded research agencies. By supporting the development of partnerships, the ARC encourages the transfer of skills, knowledge and ideas as a basis for securing commercial and other benefits of research.
- 2.4. The Linkage Program aims to encourage and extends cooperative approaches to research and improve the use of research outcomes by strengthening links within Australia's innovation system and with innovation systems internationally.
- 2.5. The objectives of the Linkage Program are to deliver outcomes of benefit to Australia and build Australia's research and innovation capacity through support for:
 - a. collaborative research between university-based researchers and researchers in other sectors;
 - b. research training and career opportunities that enable Australian and international researchers and research students to work with industry and other end-users; and
 - c. research in priority areas.

- 2.6. The grant opportunities currently available under the Linkage Program are:

About the Linkage Projects grant opportunity

Important dates

- 2.14. The grant commencement and active project assessment dates for Linkage Projects are available on the [ARC website](#).

Description

- 2.15. The Linkage Projects scheme supports projects which initiate or develop long term strategic research alliances to apply advanced knowledge to problems, acquire new knowledge and as a basis for securing commercial and other benefits of research.
- 2.16. Applications for funding under the Linkage Projects scheme must include at least one Partner Organisation. The Partner Organisation must make a contribution in cash and/or in kind and/or other material resources to the project. The combined Partner Organisation eligible contributions for an application (i.e. the total of the cash and in-kind eligible contributions of the Partner Organisations) must at least match the total funding requested from Us.

Objectives

- 2.17. The Linkage Projects scheme objectives are to:
- a. support the development of long-term strategic research alliances between higher education organisations and industry and other research end-users, in order to apply advanced knowledge to problems;
 - b. provide opportunities for internationally competitive research projects to be conducted in collaboration with organisations outside the higher education sector; and
 - c. enhance the scale and focus of research in Australian Government priority areas.
- 2.18. The intended outcomes of the Linkage Projects scheme are:
- a. the growth of a national pool of world-class researchers to meet the needs of the broader Australian innovation system; and
 - b. economic, commercial, environmental, social and/or cultural benefits for Australia.

Timeframe

- 4.8. Each Partner Organisation must:
- a. participate in the project for the project activity period unless otherwise approved by Us;
 - b. provide evidence of new or on-going collaboration directly with You and/or with an Other Eligible Organisation on the application; and

Cash and/or in-kind contributions from Partner Organisation(s) of this type are only eligible to make up a maximum of 25 per cent of the required Partner Organisation contribution. This maximum of 25 per cent is the combined eligible contribution from Partner Organisations of this type, and is not the maximum per individual Partner Organisation of this type.
- 4.11. Partner Organisation(s) whose funds are appropriated predominantly from Commonwealth or Australian State or Territory Government funding sources for the purposes of research can make combined contributions to the project over and above 25 per cent of the required Partner Organisation contribution, however these additional contributions are not eligible to make up part of the required Partner Organisation contribution.

- 4.14. Organisations that are not Eligible Organisations and not Partner Organisations but that are named as organisational participants on an application will be Other Organisations.
- 4.15. Other Organisations are not required to make a cash or in-kind contribution to the project, but must be relevant to and involved with the project.

Who is eligible to be a named participant?

- 4.16. Named participants are those individual researchers who are nominated for the particular roles identified for each grant opportunity.
- 4.17. Roles that named participants may be nominated for under the Linkage Projects scheme are:

 - b. Partner Investigators (PIs).
- 4.18. All named participants in an application must:
- a. satisfy the eligibility criteria for the role they are to perform;
 - b. take responsibility for the authorship and intellectual content of the application, appropriately citing sources and acknowledging significant contributions, including from third parties; and
 - c. have met their obligations regarding previously funded projects, including submission of satisfactory final reports to the ARC at the date of application submission.
- 4.19. A project cannot commence until all named participants meet the eligibility criteria in these grant guidelines.

Chief Investigators

- 4.20. CIs are expected to:
- take significant intellectual responsibility for the conception and conduct of the project and for any strategic decisions required in its pursuit and the communication of results;
 - ensure effective supervision, support and mentoring at all times of research personnel, including Higher Degree by Research (HDR) candidates and postdoctoral researchers for whom they are responsible; and
 - make a commitment to carrying out the project and not assume the role of a supplier of resources for work that will largely be undertaken by others.

- 4.23. CIs must reside predominantly in Australia for the project activity period. Any significant absences including fieldwork or study leave directly related to the project must have approval from You and must not total more than half the project activity period. In extraordinary circumstances, changes must be approved via a Variation.
- 4.24. CIs must not undertake an HDR during the project activity period.

Partner Investigators

- 4.25. PIs are expected to:
- take significant intellectual responsibility for the planning and conduct of the project and for any strategic decisions required in its pursuit and the communication of results;
 - have the relevant skills and experience to contribute to the project;
 - make a commitment to carrying out the project and not assume the role of a supplier of resources for work that will largely be undertaken by others; and/or
 - provide effective supervision, support and mentoring of research personnel, as required.

Eligibility to apply

- 4.26. PIs must not meet the eligibility criteria for CIs at the grant commencement date.
- 4.27. PIs may, or may not, be an employee of a Partner Organisation.

Eligibility to hold

- 4.28. PIs must not meet the eligibility criteria for a CI at any time during the project activity period.
- 4.29. Researchers who do not meet all of the eligibility criteria for being a CI may be PIs. For example, a participant may be a PI, if they would otherwise be a CI but will not reside predominantly in Australia for the project activity period.

What are the limits on the number of applications and projects per named participant?

- 4.30. These limits only apply to CIs.
- 4.31. The limits are designed to ensure that named participants have the capacity to undertake each project.
- 4.32. A named participant can apply for and be concurrently funded through the Linkage Program for a maximum of four Linkage Program projects (not including LIEF) as a CI or Director. For the purpose of counting project limits, Linkage Program projects:
 - a. include CIs on Linkage Projects, Industrial Transformation Research Program and ARC Centres of Excellence;
 - b. include Directors on Industrial Transformation Research Program, Special Research Initiatives and ARC Centres of Excellence; and
 - c. do not include CIs on LIEF, Special Research Initiatives, LASP or Supporting Responses to Commonwealth Science Council Priorities.
- 4.33. At the date of submission of applications we will count:
 - a. the number of Linkage Program projects that the named participant will hold as a CI or Director on active projects as at the active project assessment date; and
 - b. the number of Linkage Projects applications We are currently assessing which include that participant as a CI.
- 4.34. If a role or Project must be relinquished to meet the limits, We must approve the Variation before the application is submitted. Any relinquishment Variation submitted or approved after the application is submitted will not be taken into account when counting the number of projects under Section 4.32.
- 4.35. It is Your responsibility to determine if applying for, or holding, a project under these guidelines will affect an individual researcher's eligibility for the other ARC grant opportunities as other ARC grant opportunities may have different project limits. We reserve the right to change project and application limits in future grant opportunities.

5. What the grant money can be used for

Eligible grant activities

- 5.1. The Linkage Program supports research activities that meet the definition of 'research'.

We will not consider applications for a grant where one or more Partner Organisation(s) is seeking expert external assistance, not available within their own organisation, in order to develop specific applications or outputs that involve little innovation or are low risk. We consider such applications to be essentially contracted research or a consultancy arrangement and these are ineligible.
- 5.5. We cannot fund the same research activities, infrastructure or project previously funded or currently being funded through any other Commonwealth grant.
- 5.6. The Linkage Program does not support activities leading solely to the creation or performance of a work of art, including visual art, musical compositions, drama, dance, film, broadcasts, designs and literary works, unless those works are directly related to the project activities and demonstrably research based.

What grant funds can be used for

 - b. teaching relief for CIs up to a total of \$50,000 per CI per year;
 - c. travel costs essential to the project, including economy travel costs for domestic and/or international travel and accommodation, not exceeding an average of \$20,000 per year of the project. Travel costs related to d. and f. vii are not counted towards the average of \$20,000 per year limit detailed here;

- d. expenditure on field research essential to the project, including technical and logistical support, travel expenses (including accommodation, meals and incidental costs);
- e. equipment (and its maintenance) and consumables essential for the project. Funding will not be provided for equipment or consumables that are considered to be for broad general use; and
